

When you arrive on the International Airport of Cumbica, you will have two transportation options to get to the Hotel/place you are going to stay while in São Paulo.

- 1) One of the options is to take a taxi, which is located on the arrival terminal. The airport has 2 Terminals. In any of them is possible to find secure taxi companies. The authorized company on Cumbica International Airport is Guarucoop, see their website for more information: <http://www.radiotaxiazulebranco.com.br/index.html>
The transfer might cost you about R\$90 or U\$45 (estimated rate). You should give the taxi driver the address of the Hotel/place you are going to stay.

- 2) Another option is to take a bus from Airport Service: Guarulhos International Airport Executive Buses. Special lines leave the airport and provide access to various places in the city.
The buses from Airport Service can be found on Terminal 1, Wing A (arrival) and the ticket should be bought with the driver (R\$30 or U\$15).
Departures: about every 30min.
